PARTNERS AND NETWORK

Universities

Healthcare Service Providers

Startup Ecosystem and Accelerators

TEAM

Our team combines diverse skill-sets and expertise to improve the prevention and management of chronic and lung diseases

FOUNDERS

Dr. Peter Tinschert
CEO | PhD in Digital Lung
Medicine & Management

Pioneer in digital
biomarkers for lung
diseases.

David Cleres
CTO | MSc in Computational
Science and Engineering

Expert in acoustic AI
with startup and
research experience.

Dr. Matthias Groh
CCO | PhD Pathology,
Senior Commercial Roles

Senior executive with
proven commercial track
record in health care.

MEDICAL ADVISORY BOARD

Prof. Martin Brutsche
Chief Pulmonologist

Key pulmonology
opinion leader in
Switzerland.

Dr. Patrick Stais
Managing Sr. Physician

Digital lung medicine
evangelist and key
opinion leader.

VISION

A world **without unnecessary suffering** due to **lung diseases**.

MISSION

Develop **solutions** that **prevent the progression and spread** of **lung diseases** on a **global scale**.

PRODUCT

Our products are based on ResGuard Med, a CE-certified and highly accurate acoustic artificial intelligence that is developed in collaboration with leading Swiss universities.

At home.

Our *myCough* app, the #1 cough analytics app with excellent end user NPS.

ResGuard Med™

Acoustic AI for advanced lung symptom analytics.

On premise.

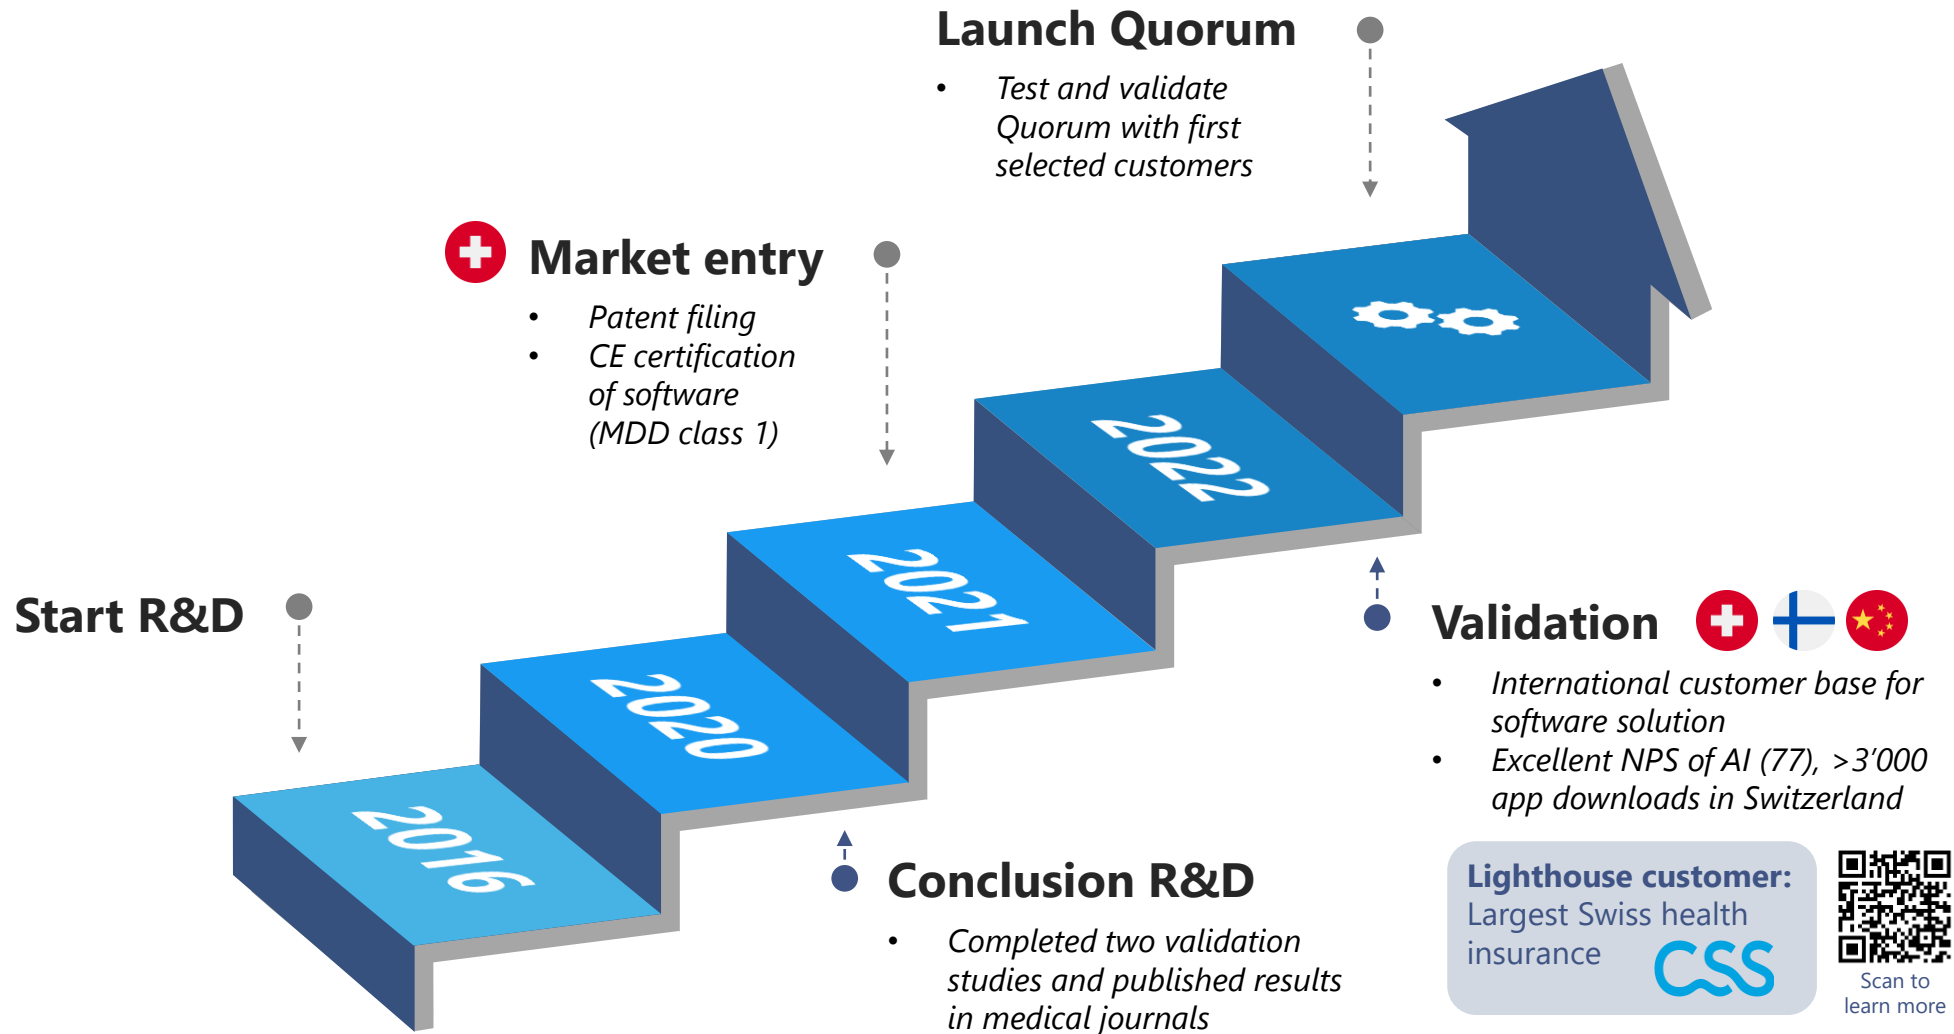

Our Quorum MVP based on a Raspberry Pi, in customer co-creation since 12/22.

R&D since 2016. Certified & patented in 2021.

MARKET ENTRY

Based on extensive clinical studies in Switzerland, Resmonics has launched its acoustic AI and is continuously expanding its customer base
